

U.P. Integrated School

Diliman, Quezon City

A CALL to UPIS ALUMNI to be a PART of UP High, Prep, Elem and Integrated School (UPHPEIS) Centennial Book

Greetings!

As contribution to the UP Centennial celebration, the U.P. Integrated School is now working on its own Coffee Table Book with the theme “**UPHPEIS@82: Alay ng UPIS sa Sentenaryo**”. We plan to include the following in this book: (1) History of the UPIS with UP High, UP Prep and UP Elem as “roots”; (2) some UPIS innovations, like the UPIS curriculum, the UPIS language policy; the four-pronged approach of K-2, etc; (3) impressions/ reminiscences/other write-ups from alumni, teachers and parents; (4) literary articles on UPIS by students; and (5) photos that “speak for UPHPEIS through the years”.

We wish to come out with this reader-friendly, creative book **on or before October 2008**. It will come in full color, book paper 60 lbs, 8 1/2” by 11” size, perfect binding and around 1,000 copies.

For this purpose, we call on YOUR BATCH to support this project. *Do **SPONSOR one full-page at P10,000.00** – complete with your most cherished photos, reminiscences/ impressions about UPIS, and/or other forms of write-up possibly in a creative lay-out of your choice.* Below are some guidelines which can help you make such lay-out:

1. If possible, photos must be colored (Black and white photos circa 60’s are most welcome too)
2. The text can be in English or Filipino, written in a reader-friendly (not-so-formal) way.
3. The whole lay-out should not exceed 8 1/2” by 11” inches (coupon bond size)

As the basic education unit of the University, we believe that UPIS should have its own printed contribution to the University’s Centennial. We will therefore be very grateful if you can help us publish this book and be a visible part of the University’s history. Deadline for sponsorship is **August 30, 2008**, to be submitted to the **UPIS Office of Research, Development and Publication (ORDP)**.

We earnestly hope that this matter will merit your most generous attention consideration.
